

FREQUENTLY ASKED QUESTIONS REGARDING STRETCH CEILINGS

Where can Stretch Ceilings be installed?

Stretch Ceilings are a versatile system that can be installed in both residential and commercial areas such as condos, single family homes, theaters, fitness studios/facilities, medical facilities, hotels and restaurants.

Will Stretch Ceilings fit the shape of my ceiling?

Yes, the best part of this system is it can be customized to fit a wide variety of shapes and sizes.

What material is the system made from?

It is made of Polyvinyl which is a tough synthetic resin that won't crumble, discolor, crack, flake or peel. It is also mildew and moisture proof, non-flammable and antibacterial.

What are the available finishes?

We offer a wide selections of finishes such as: High gloss, Satin, Matte, Translucent, fabric, a wide variety of colors and custom colors.

Can images be printed on the Stretch Ceilings?

Yes; anything from simple patterns, highlights, shadows, images, murals and abstract designs. All kinds of images can be printed of our Stretch Ceiling and wall coverings.

What are some of the benefits of installing Stretch Ceilings?

Antibacterial, mildew and moisture resistant, no ceiling or wall preparation, an ability to add light where lighting options are unavailable, no maintenance and quick installation.

How much of my existing ceiling or wall space will I lose after installation?

The system only requires 1 to 2 inches and will give off the illusion of added height and width to ceilings and walls.

We have cement or popcorn ceilings and wall. Will we need to do extra preparation?

No preparation required. The Stretch Ceiling system is installed directly over the existing ceilings and walls.

Can lighting be added even though we have a cement ceiling or no current electrical?

You can add recessed lighting, customized channel lighting, chandeliers and even fans to the system.

How long does it take to install?

One to two day with virtually no mess and little clean up.

When is the best time to install?

We recommend installing the Stretch Ceiling as one of your final phases of your project.

Do we need to remove our furniture?

Not at all. We recommend covering all furniture and moving everything away from the walls.

Do you offer a warranty?

Yes, a 10 year manufacture warranty.
